Info

Yiğit Toprak (yee-eet) is a graphic designer and programmer based in Toronto. His work explores graphic systems built through reimagined tools, interfaces, and processes. His practice spans digital and physical design, hands-on making, type design, visual identity, creative direction, editorial design, custom software and hardware, performance, and design pedagogy. He has worked with clients including Google, CIBC, the University of Toronto, Projectory, York University, Evergreen, NXNE, and SvN Architects.

Work Experience

Designer & Developer
Frontier

Permanent Full-time
Aug 2024 – Present
Toronto, Canada

Developed web applications and created custom software and hardware solutions for a range of brands and companies, supporting interactive and technology-driven projects. Delivered websites, brand identities, interactive tools, signage, editorial materials, and immersive installations that combine digital design, hardware design, and creative technology.

Research Assistant
York University

Contract Full-time
Jun 2024 – Dec 2024
Toronto, Canada

Developed software and designed key project components for a research initiative led by York University and Hemispheric Encounters, exploring the intersection of performance art and technology. Designed and built prototypes and interactive software to archive the performance art network.

Exhibition / Graphic Designer
Take Your Seat

Freelance
Apr 2024 – Aug 2024
Toronto, Canada

Contributed to the design of photography exhibitions, creating legends, developing typography, shaping exhibition spaces, and designing printed layouts for the exhibition and installation.

User Interface Designer
BlockCerts

Freelance
Aug 2023 – Mar 2024
Toronto, Canada

Contributed to the rebrand of BlockCerts, creating the new logo, style guide, and brand logic, and helping develop the interfaces of the company's apps and websites.

Graphic Designer
Izen Architecture

Internship
Apr 2022 – Jul 2022
Toronto, Canada

Created posters, edited 3D renders, and animations for the website and events for the studio and ongoing architecture projects. Created posts, animations, and videos for the social media accounts.

Designer / Assistant Photographer
Medya Terzisi

Internship
Jun 2021 – Sep 2021
Ankara, Türkiye

Worked as an intern closely with an art director and a creative team designing posters, motion graphics, logos, and advertisements. Took part as a on-site photographer and post editor in advertisement projects.

Designer / Columnist
3DMadMax Dergisi

Part–time
Jan 2021 – May 2021
Ankara, Türkiye

Published magazine articles on design, and typography. Worked with a creative team designing the monthly magazine, and contributed to the layout, and cover design

Education

OCAD University

Bachelor of Design, Graphic Design
Completed

Graduated in 2024 concentrating on typography, interactive tools, intersection of code and design and design research. Co-founder: 100M Studio, President: Turkish Student Association, Member: OCAD U Climbing Club, 2024 Medal Winner: OCAD U Graphic Design

Ted Ankara Koleji

High-school
Completed

Volleyball Team, Robotics (BCHS Trojans 2386)

Lectures, Demos and Teaching

Temple Of Designers

Aug 2026 – Present
Frontier Design Studio

Organize and lead bi-weekly lectures, and workshops at Frontier Design Studio, delivering sessions on design philosophy, intersection of code and design, contemporary experimental interfaces and speculative design.

Sheep Studio Are.na Lecture

Jul 2026
Sheep Studio

Delivered a lecture on experimental integration of are.na platform into web projects: Covering APIs and my own process in building personalized tools.

Guest Critic

Jan 2025 – Present
OCAD University

Provided critiques of student work in workshop classes, including Antithesis Group (2025), Graphic Design 2, Research Methods, and Type Design.

Open Type

Feb 2025
Atelier Next Door

Created an interactive Arduino-based machine that lets users control design elements on a screen. Exhibited the project at Atelier Next Door and gave a demo lecture on the process of building the installation.

Experimental Type Design Workshop

Feb 2024
100M Studio – OCAD University

Co-led a workshop with Alexandra Maftei at OCAD University and 100M on how design tools shape letterforms. Participants built experimental drawing tools, and their letters became a collaborative community font.

Sheep Studio Demo

Feb 2024
Sheep Studio

Delivered a demo of Manicule of Resistance, a prosthetic hand-based tool and software system in which hand gestures control design elements.

New Demos

Jan 2024
New Stadium

Delivered a demo lecture on my ongoing interactive design projects, focusing on the machines I built for generative, code-based experimentation, including Duckinator and Manicule of Resistance.

Honors and Awards

OCAD U Graphic Design Medal Winner 2024
OCAD University – May 2024

Nora E. Vaughan Award
OCAD University – May 2024

OCADFA Memorial Scholarship in memory of David Alan Wilson
OCAD University – May 2024

OCAD U Winter Bursary for International Students
OCAD University – Dec 2022

Ian Tudhope Scholarship in Graphic Design
OCAD University – Jul 2022

OCAD U Summer Bursary for International Students
OCAD University – Jun 2022
